

STUDEBAKER BODIES MADE IN SOUTH BEND

Removal of the Pontiac, Mich., Plant to This City is One of Steps in Concentration of Industry.

"The transfer of our automobile body manufacturing plant from Pontiac to South Bend," said Frederick S. Fish, president of the Studebaker corporation, "is a part of our general policy to promote the interrelationship between the two departments of our business, the vehicle and the automobile."

Mr. Fish had been asked by The News-Times concerning the foundation for reports of considerable additions to the employing capacity of the South Bend plant of the Studebaker corporation by the concentration here of work pertaining to the manufacture of automobiles, in which the company is extensively engaged at Detroit.

"All of this interrelationship, I may say," continued Mr. Fish, "has its source in the South Bend plant. Detroit is not in position to help South Bend, except that it might supply us with drop forgings were not its machinery for that purpose kept busy on automobile production, but South Bend can help Detroit in various ways, and these means of cooperation we are constantly extending."

Mr. Fish went on to say that carloads of castings are daily shipped from the Studebaker factory in South Bend to the Studebaker automobile factory in Detroit, and that such helps as these have materially assisted in relieving the congestion in an overcrowded plant.

As to the Pontiac plant, which has been transferred to South Bend and is now in operation, Mr. Fish said that in reality it meant more employment for South Bend mechanics rather than the bringing in of any number of workmen from Pontiac. It has been purely a matter of volition with the employees at Pontiac whether they came to South Bend or not.

"The Studebaker corporation has merely moved the equipment," said Mr. Fish.

The Pontiac plant was a makeshift in the first place, in a crowded conditions in the shops at Detroit and its transfer to this city was in pursuance of the policy of concentration and relationship the company is pursuing.

"We have given the matter no publicity," said Mr. Fish, "just as there has never been anything said about our construction of a large lumber drying plant and the foundry work I have referred to. It has all been done and much more will be done as a matter of business, and yet not without civil interest and pride. We are constantly extending our operations and improving our facilities with a view to attaining the greatest possible efficiency."

The Studebaker corporation now employs in its two divisions approximately 12,000 people. Its expansion would now warrant the employment of a larger number were its facilities such as to accommodate them. Energies are being bent to this end, and in a steadily increasing way the South Bend plant will play a part.

Though separated by a distance of 200 miles the two divisions of the Studebaker corporation's business are rapidly becoming interrelated, and it is believed that for all practical purposes they will be eventually one.

And the closer the relationship becomes the greater will be South Bend's benefit.

SWIMMER GOES FROM BATTERY TO HOOK

Long Distance Which Has Downed Many Is Covered by Capt. Alfred Brown.

NEW YORK, Aug. 29.—After many unsuccessful attempts by long distance swimmers for years past to swim the 22 miles from the Battery to Sandy Hook, Capt. Alfred Brown of the Flushing bay life saving station corps accomplished the feat Thursday. Diving off the battery wall at 5:15 o'clock Thursday morning he landed at the Sandy Hook proving grounds at 6:13 p. m., having been in the water 13 hours and 23 minutes.

Capt. Brown was accompanied by four men in a launch and a row boat. He had to be assisted up the sloping beach when he landed, as he was numb and after walking about a short time he limbered up and declared he felt no bad effects from his long immersion. During his swim he ate but three small sandwiches and drank a small quantity of tea.

Many swimming authorities have declared the feat never could be accomplished because of tidal conditions.

A lazy liver means a lazy man or woman. If your liver is inactive, Hollister's Rocky Mountain Tea will live it up—and make you more active, agile and energetic with Tea Tablets, 35c. At all druggists. Connelley's Drug Store, Advt.

FIRE MEXICANS AND EMPLOY THE CHINESE.

EL CENTRO, Calif., Aug. 29.—The recent rebellion near Mexicali, lower California, was precipitated according to a local newspaper Thursday by the action of large land interests in discharging hundreds of Mexican laborers and employing Chinese. Sixteen hundred Mexicans were thrown out of employment and a large number promptly took up arms. Small raids on ranches, horse stealing and petty thefts have marked the outbreak so far.

CHARLTON IS MAKING A STUDY OF ITALIAN

American Arrives in Naples and Says He Wants to be Able to Follow His Trial.

NAPLES, Aug. 29.—Porter Charlton, the American who must stand trial before the Italian courts for the murder of his wife, Mary Scott Castle Charlton, at Lake Como three years ago, arrived at Naples Thursday from the United States aboard the steamship Re d'Italia. He will be taken to Genoa on the steamer, arriving there Saturday and will be confined in the Genoa prison until Sept. 2 when he will be transferred to Milan or Como. The Associated Press correspondent was allowed to see Charlton, who was sitting in his shirt sleeves, about to have supper with the carabinieri. Charlton promptly exclaimed that he was tired of seeing newspaper men. He added that he had a comparative good voyage and had spent most of his time in studying the Italian language, as he was desirous of learning sufficient words to follow his own trial and at the same time had prepared his defense.

ENGINE EXPLODES; THREE MEN SCALDED

C. H. & D. Engine Drawing Gravel Car Lets Go and Throws Men From Cab.

INDIANAPOLIS, Aug. 29.—Three men were seriously scalded when a C. H. & D. engine drawing gravel in a Cincinnati, Hamilton & Dayton engine, drawing a gravel train exploded and threw the men from the engine cab near Tilden, in Hendricks county, late Thursday. The injured, who live in Indianapolis, were picked up by a passenger train and brought to local hospitals. The injured are: Paul L. Washburn, 24, engine driver; Verniss Barber, 22, fireman; George Williams, 23, brakeman. The men were in charge of a gravel train doing construction work.

INTERURBAN STRIKE IS CAUSE OF FIGHT

Four Men Are Placed Under Arrest at Indianapolis Following a Street Fracas.

INDIANAPOLIS, Aug. 29.—The first trouble in Indianapolis, the result of the strike of the motormen and conductors on four interurban systems, which started last Saturday, occurred Thursday night in front of the Traction terminal building. Four men were arrested, the result of the melee, and several bystanders said they had been hit during the free for all fight, but could not identify their assailants.

Two of the men arrested, John Thorp, of Pittsburgh, Pa., and Dennis Gorman, of Detroit, said they were organizers for the Amalgamated Association of Street & Electrical Railway Employees and a third, Leon Fitch, said he was a striker of Columbus, Ind. The fourth man taken in custody, Walter Bartholemew of Kendallville, Ind., is said to be in the employ of the interurban companies. They were held under \$250 bond each on charges of assault and battery. Bartholemew's bond was signed by a street car inspector.

FIND WOMAN ALONE WITHOUT ANY FOOD

Guardian is Asked for Josephine Giersz, Who Lives on Farm Near South Bend.

Alone and without food for days at a time Josephine Giersz wanders about her little home on a little farm a few miles out of the city. The woman is partially blind. At times she imagines her home is filled with wild horses which she believes follow her about and attack her. Practically she strikes at them in defense.

Fearing that the woman may be mentally deranged application to be appointed guardian has been filed by Agnes Graczyk, through Farabaugh and Hagerty. The application states the woman is too feeble to prepare her own food and for days at a time goes without any. No fuel has entered the home for the past few weeks. Several times the woman has been found lying cold and hungry on a cot.

A hearing will be held in Justice Zink's court to inquire into her condition.

The woman's feeble condition is attributed to the lack of attention shown by a brother, Stephen Giersz, who is said to have become addicted to drink since the death of his father. It is also feared that he may appropriate the little property the woman has and spend it on drink.

SHOWS INCREASE.

INDIANAPOLIS, Aug. 29.—Marion county has \$4,731 adult male inhabitants a gain of 11,745 since 1901, according to the congressional enumeration just completed by township trustees.

Prescribed by doctors for 18 years. For liberal sample and booklets write to Dept. 34-S, Resinol, Baltimore, Md. Sold by every druggist.

HOLD BOY IS TOO YOUNG

WAUKESHA, Wis., Aug. 29.—Six year old Richard Tutovsky of Racine, recently sentenced for various crimes to the reform school to remain until he reaches his majority, was Thursday returned to his parents. Were he two years older the industrial school could receive him but the law makes no provision for burglarious infants.

LIGHTNING HITS SCHOONER

BOSTON, Aug. 29.—The fishing schooner Annie and Jennie came into port Thursday with its crew still suffering from the effects of an electric shock sustained Wednesday when the vessel was struck by lightning. The bolt jarred the schooner from stem to stern and every one on board was stunned and thrown to the deck. One sailor was temporarily paralyzed. The schooner was only slightly damaged.

METEOR FALLS IN RIVER

TIVERTON, R. I., Aug. 29.—A meteor fell into the Seacoast river here Thursday, churning up the waters in a spectacular manner. Great volumes of steam arose and the accompanying explosion sounded like the discharge of a 12-inch gun.

FARMER KILLED.

LAFAYETTE, Ind., Aug. 29.—Owen Nichols of Otterbein, a wealthy farmer, was instantly killed near here Thursday night in an automobile accident.

NATURE'S CREATION QUICKLY ROUTS COUGH

Letters written by Mrs. Mary E. Ray of Mt. Etna, Indiana, speak volumes for the value of Nature's Creation. They tell the story of how she was relieved of most distressing cough—cough so severe that she could hardly get her breath. "February 27, 1913—I saw an advertisement in the paper regarding Nature's Creation. I have been troubled for five years with bronchitis and had pneumonia several times. I cough winter and summer, and it seems nothing does me any good. My lungs also trouble me. Send me one bottle of Nature's Creation." "March 17, 1913—Your medicine is all right. I begin to feel fine. My medicine is good. My health is better than it has been in a long time." "April 12, 1913—I am feeling better and I think the medicine is doing the work all right. I do not wheeze when I get my breath all." "May 20, 1913—I am glad your medicine has done me so much good. I can thank you for having such medicine for those who suffer as I have. May your good work go on to help others." "June 16, 1913—I am feeling fine at present and greatly appreciate the fact that Nature's Creation has done for me. When I began taking the medicine I was in an awful bad condition. I found results before the first bottle was near gone. I would cough at times till it seemed that I could not hardly get my breath, but at the present I am enjoying good health, and I owe it all to Nature's Creation. I hope your medicine will be the means of helping others." Yours truly, MRS. MARY E. RAY.

Mt. Etna, Indiana.
Booklet containing full information regarding the use of Nature's Creation in the treatment of tuberculosis and the conditions which lead to it, such as weak lungs, bronchitis, impure blood, run-down system and asthma, are being distributed free of all charge by M. L. Haymann, 417 State Life Building, Indianapolis, Ind. The booklet also contains photos and testimonials from local parties. Write for one to-day.
